

# PUDU CC1

## Clean & Clever, 4-in-1

**Global Leading Robotics Company** 

# About PUDU CC1

#### **Versatile Cleaning** multi-functional, dedicated to a better productivity

**Function Highlights:** 

- Sets sweeping, scrubbing, vacuuming and dust-mopping multi-function in one.
- Four cleaning modes:
  - 1. Standard Sweeping Mode
  - 2. Scrubbing Mode
  - 3. Carpet Vacuuming Mode
  - 4. Silent Mopping Mode

Sweeping

Dust Mopping

Vacuuming

#### **Suit Various Floor Types** effortlessly adapts to different surfaces

#### **Function Highlights:**

- > Suitable for indoor floors with **different materials and hardness**:
- > Hard floor: Terrazzo, marble, floor tile, epoxy resin, sandstone, artificial stone flooring, etc.
- > **Soft floor**: Low-pile carpet

# Ultimate Edge Cleaning ensure thorough coverage and leave no spot untouched

PUDU

#### **Function Highlights:**

Ultimate edge cleaning in certain scenes with side brushes. It performs edge  $\triangleright$ sweeping well with no trash left behind.

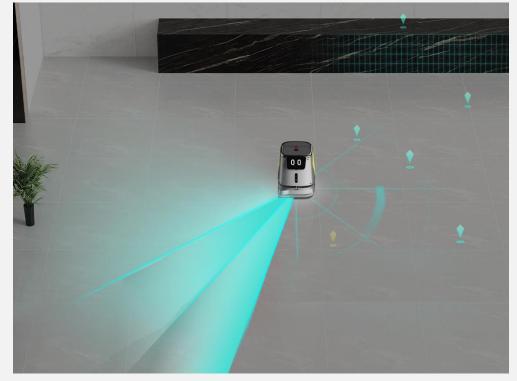

Equipped with **Multi-fusion sensors**, it can stop at any angle and move away as soon as it encounters obstacles.

# PUDU

### **Automatic Localization & Navigation**

#### **Function Highlights:**

- Based on PUDU SLAM positioning system, CC1 supports both Visual SLAM and Lidar SLAM positioning and navigation solutions to perform tasks more efficiently in complex scenarios.
- Equipped with Multi-fusion sensors, it can stop at any angle and move away as soon as it encounters obstacles.

#### **Function Highlights:**

> The robot will automatically return to the charging station when the power is low.

#### **Function Highlights:**

- > Large Capacity: 15L clean water tank and 15L waste water tank with an exclusive workstation
- > Automatically refill the water and power charging at the docking station
- No manual intervention, worry-free and labor-saving

## Mobile Water Tank - No Plumbing Modification

#### **Function Highlights:**

PUDU

- Fixed docking stations, combined with this mobile water tank, eliminate the need for water pipeline modifications—just plug in and use.
- The mobile water tank has a sufficient internal capacity, featuring a 30L clean water tank and a 30L wastewater tank, providing enough water for two complete cycles of the CC1.
- When the clean water runs out or the wastewater tank is full, intelligent prompts on the mobile app and the robot's homepage will alert users to manually refill the mobile water tank.

Modular Design

PUDU Rapid Deployment, Flexible Extension, Easy Maintenance, Easy Accessibility

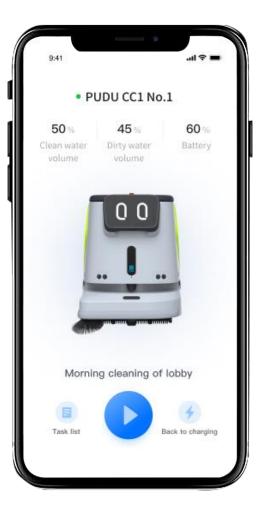

#### **Function Highlights:**

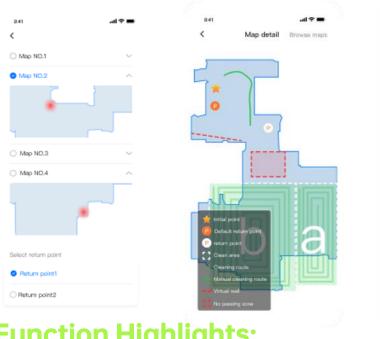

One machine with multiple functions, quick disassembly of components, one click to switch

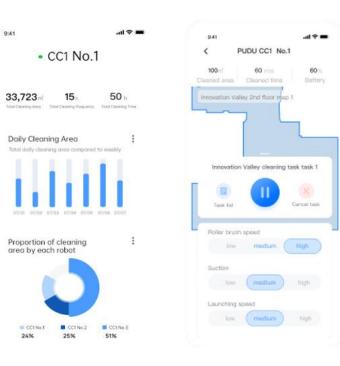

modular design of cleaning components, the module can be assembled and disassembled in **1 minute**.

Simplify the Cleaning Process

#### **Robot-System Interaction** PUDU cleaning App PUDU

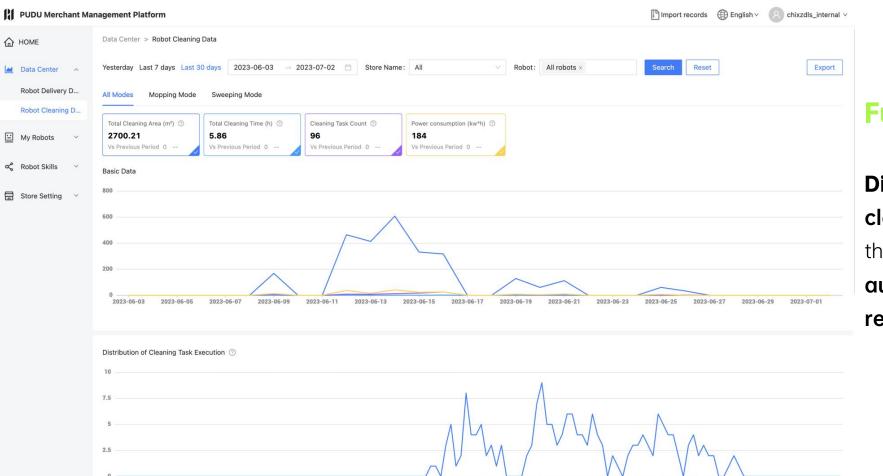

#### **Function Highlights:**

- **Remote operation via APP**, work status can be checked at any time.  $\triangleright$
- Get real-time notifications for cleaning performance, such as cleaning  $\succ$ time and cleaning area.

#### **Robot-System Interaction** PUDU Management Platform

#### **Function Highlights:**

### Digitization and visualization of

cleaning effects: collect and summarize the working status of each unit, and automatically generate cleaning reports.

#### **Intelligent Commercial Cleaning Robot**

- Enhances cleaning efficiency and public image
- Improve cost effectiveness and cleaning quality
- Reallocates custodial efforts to higher-value tasks
- Provides detailed reports for a measurable clean

- Simplify your cleaning processes and improve your workflow: pre-set program enables CC1 to start operating automatically and immediately
- Stable cleaning efficiency and higher quality of cleaning

- Reduce risks of workforce challenges, such as employee absenteeism and turnover
- Redeploy labor: Employees can focus on more complex responsibilities, ensuring more productivity.

• **Lower** recruitment, training and management **costs**: simple operation and user-friendly interface, set up and use in hours with minimal training

• With **measurable records and reports**, custodial inspections can be easily dealt with, and work status can be optimized.

### The Cleaning Requirements from Customers

Less manual intervention, automation, and worry-free

#### **5:00 AM**

PUDU

The robots **start the scheduled cleaning tasks automatically.** 

#### 5:30 or 6:30 AM

Robot 2-X: Complete corridors cleaning on different floors, and send cleaning reports to cleaning supervisor.

#### 1:00 PM

Repeat the morning cleaning tasks and perform the **second cleaning task** on different floors.

#### 5:30 AM

Robot 1: Completes scrubbing the hall.

#### 7:30 AM

Finish morning cleaning tasks and the robots **automatically return to the workstations** for **water refilling** or **recharging**.

#### 7:00 PM

Repeat the morning cleaning tasks and perform the **third cleaning task** on different floors.

# About PUDU CC1

## **Pudu Robotics**

Pudu Robotics, a global leader in the service robotics sector, is dedicated to enhancing human productivity and living standards through innovative robot technology.

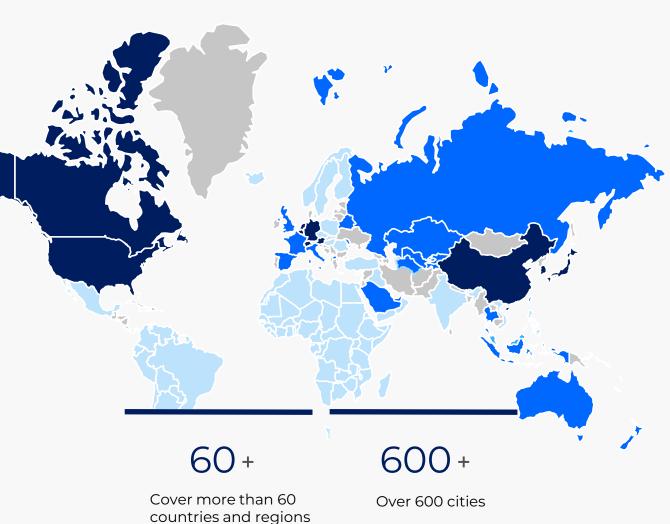

With a focus on R&D, manufacturing, and sales of service robots, Pudu Robotics holds nearly a thousand authorized patents worldwide, encompassing a wide range of core technologies. The company's robots have been widely adopted in various industries, including dining, retail, hospitality, healthcare, entertainment, education and manufacturing. To date, Pudu Robotics has successfully shipped over 80,000 units to a variety of markets, with a presence in more than 60 countries and regions worldwide.

## Scale Advantage

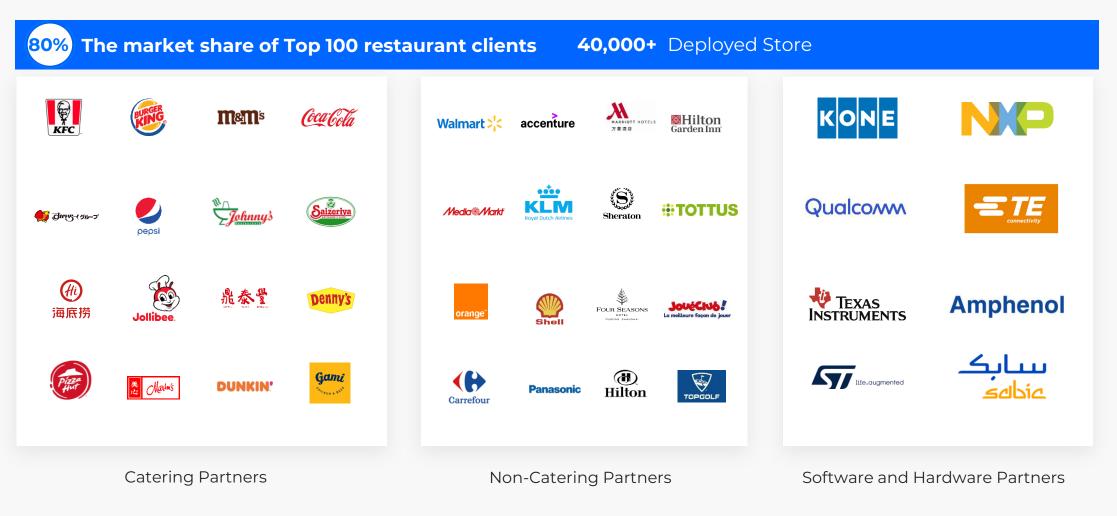

#### Globalization

Pudu Robotics has established a business presence in North America, Europe, East Asia, Asia-Pacific, the Middle East and Latin America. The products have been exported to more than 60 countries and regions around the world, covering more than 600\* cities worldwide. Pudu Robotics has established a trustworthy international brand image and become one of the representative enterprises of China's "intelligent" manufacturing abroad.

Robot waiter helps ease staff shortages in busy Northland restaurant o

life & style

off busy stat

Wait staff run off their feet this summer due to worker shortages are getting an extra hand of the non-human kind.

A robotic waiter, BellaBot, is helping by delivering meals from the kitchen to tables, then running dirty dishes back to the kitchen.

At Paihia restaurant Green's Thai Cuisine, the BellaBot means wait staff can spend an average of 11 to 12 minutes longer at each table, owner Vikas Sharma said.

The guide price for the friendly-faced robots is \$20,000 (£14,500), which is less than the cost of employing a waiter at minimum wage for 40 hours per week.

Quirky footage shows Bella, who features a wide-eyed feline face, sweeping across the restaurant floor dishing out delicacies to delighted customers.

A Chinese noodle restaurant in Madison Heights may be the first in the area to employ the BellaBot, a robotic cart with a digital cartoon cat face that rolls food from the kitchen to the customers' tables.

Noodle Topia on John R is known for its house-made, hand-pulled noodle dishes, dumplings and Chinese tea drinks. The casual eatery has gained some nonhuman assistance in the form of BellaBot, which has four trays for carrying food (no arms) and has a precise
