Bumble

Rumble

This is Rumble.
He's ready for play time adventures.

Let's get coding!
When Rumble wakes up,
he's one clumsy dino.

With his eyes still half-closed, he stumbles
and stomps toward his boulder collection!

Crash!

Use FORWARD commands to code
Rumble to knock over his boulders!

The crash of the boulders
helped Rumble finish waking
up. An even louder noise
came from his very
hungry tummy.

"It's chow time!" Rumble thought.
"I'll bet Bumble is hungry, too!"

Use a FORWARD and a LEFT TURN command to help him find a tasty dino treat!

Rumble grabbed his bone and went to meet his friend. He saw Bumble with his shoulder against a boulder, pushing with all his might.

2

"Hey, Bumble!" Rumble bellowed.
"That's a big rock for a little dino!"

Use a FORWARD and a RIGHT TURN command to help Rumble meet up with Bumble!

Bumble looked up at his friend.
"Hi, Rumble! I was just practicing my rock-and-rolls!"

3

"Eat this!" Rumble bellowed.
"It'll make you big and strong!"

Turn on PLAY MODE and press the FORWARD arrow to feed Rumble and Bumble!

After breakfast, Bumble had an idea for a game. "Close your eyes, Rumble! I'll hide, and then you find me!" Bumble said.

4

"Got it!" said Rumble. He closed his eyes, waited a few moments, and then began stomping around the yard!

"Watch out!" cried Bumble.

Use two LEFT TURN commands to help Rumble find Bumble, and knock over the tree!

Rumble looked at the knocked-over tree. "I forgot to open my eyes!" he said.

5

"That's ok," said Bumble, climbing to the top of the slide. "Just watch while I practice my slide-and-glides!"

Rumble kept his eyes on Bumble. "I can't wait to see this!"

Can you code Rumble to meet Bumble at the bottom of the slide?

"That's my best slide-and-glide yet!" said Bumble. "What's next?"

6

Rumble's feet started to stomp and stamp in place. "Hey, Bumble! Do you ever get so happy you just feel like dancing?"

"I do!" cried Bumble. "I think this is one of those times!"

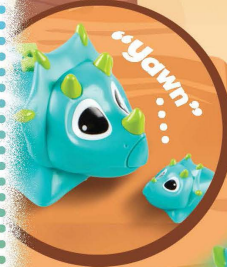

Press

Turn on PLAY MODE and press the RIGHT TURN arrow to make Rumble dance!

7

As the dance party ended, Bumble yawned a ferocious dino yawn.

"Alright, Rumble," Bumble said. "I think it's time for my power nap!"

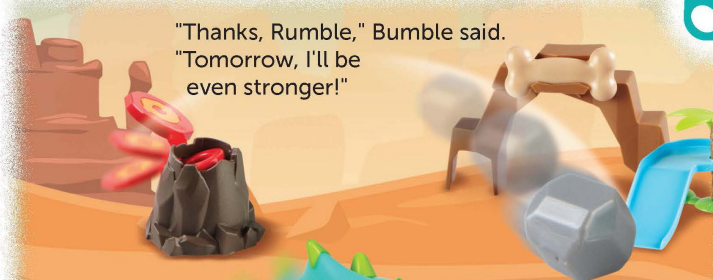

Use one FORWARD and one REVERSE command to help Rumble bring Bumble home.

8

"Thanks, Rumble," Bumble said. "Tomorrow, I'll be even stronger!"

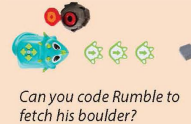

"Doh-de-doh-doh"

Rumble clomped off toward home. On the way, he saw a tiny volcano erupt, and shoot a boulder high into the air.

9

"Oh!" thought Rumble. "That boulder would be great for my collection!"

Rumble put his head down, and dashed off to find his new favorite rock.

10

Rumble carried his new favorite boulder back to his house. "I can't wait for you to meet the rest of the rocks!" he thought.

11

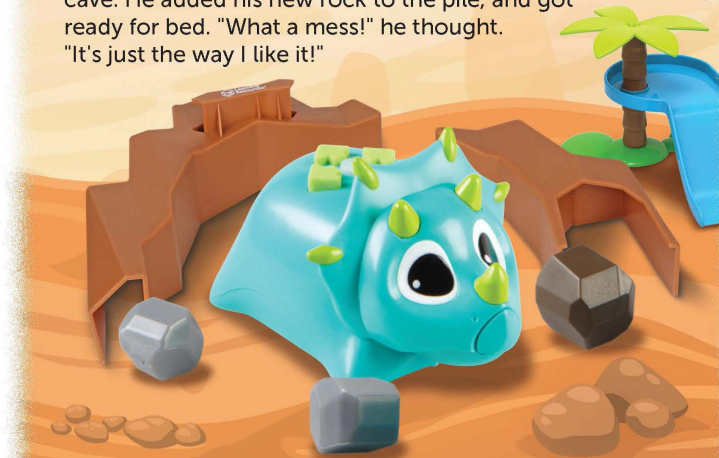

As he ran home, he decided to take a victory lap around his cave. He was running so fast, he almost didn't notice when he tripped and rammed right into the side of his cave!

12

Rumble saw his boulder collection in the rubble of his cave. He added his new rock to the pile, and got ready for bed. "What a mess!" he thought. "It's just the way I like it!"

"We can make an even bigger mess tomorrow!" he thought, as he began dreaming of his next adventure.
