 **CONNECT**

**Pet Care. Connected.**

# CONNECT

The Litter-Robot Connect app gives you additional freedom from your litter box duties by allowing you to remotely monitor and control a single Litter-Robot or multiple units.

- View the Waste Drawer level
- Receive Drawer Full push notifications
- Monitor your cat's litter box usage
- Change settings and cycle remotely
- Control multiple Litter-Robot units

## Connect Your Litter-Robot

### IMPORTANT - READ FIRST

- ❑ Compatible with Apple mobile devices (iPhone, iPad, iTouch).
- ❑ Requires iOS 9.0 or greater.
- ❑ Requires camera permission to scan Litter-Robot QR code.
- ❑ Requires 2.4 GHz router signal (5 GHz band not supported).

### 1. Set up your Litter-Robot.

Unbox and set up your fully assembled Litter-Robot. Position the unit near your router or WiFi extender to ensure a reliable signal. Make sure it is plugged in and has completed the initial Clean Cycle.

### 2. Check your WiFi.

Make sure that your WiFi is turned on. Take note of your WiFi password—you will need this in the final step.

### 3. Download the Litter-Robot Connect app.

Visit the App Store on your Apple mobile device and download the Litter-Robot Connect app.

### 4. Open the app and follow the instructions.

Follow the instructions closely for a successful onboarding experience. We recommend that you use the same account (email and password) used to purchase the unit.

### *Others in your household want to connect?*

Simply onboard with the same account.
