Qty	Description																																												
1	Breadboard (full size)																																												
5	Solid wire (red)																																												
5	Solid wire (black)																																												
5	Solid wire (yellow)																																												
20	Solid wire (blue)																																												
10	Solid wire (green)																																												
12	LED - Red																																												
1	LED - RGB																																												
3	100 ohm resistor																																												
12	220 ohm resistor																																												
1	4.7K ohm resistor																																												
5	10k ohm resistor																																												
1	1Megohm resistor																																												
5	Push button (2 pin)																																												
1	Piezo buzzer																																												
1	Female midi jack																																												
1	Momentary button / tactile switch																																												
3	8 ohm speaker																																												
4	Screw terminal 2pos 2.54mm																																												
1	Photoresistor (10k)																																												
1	Piezo electric disc																																												
2	10k Trim Potentiometer																																												
2	M/M break-away headers 40-pin																																												
1	Breadboard (half size)																																												
1	Jumper wire set - 140pcs																																												
1	8x8 LED matrix																																												
3	Force Sensing Resistor (FSR)																																												
1	Joystick (2 axis) + momentary																																												
1	ADXL3xx Accelerometer
