Components

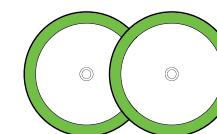

Main Unit

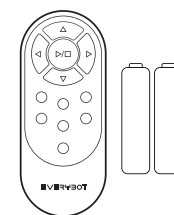

Water Supply Mop Kit

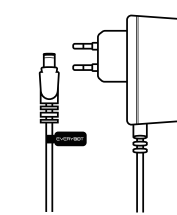

Mother Yarn Mops: Grey

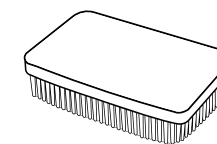

Microfiber Mops: Green

Remote Control:
with Battery

Power Adaptor

Silicon Brush

Note

· Mother yarn mop (grey color)

It is included with mother yarn which is 100times thicker than microfiber. Thus, it is good for cleaning up dust in cracks and stains.

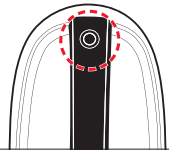

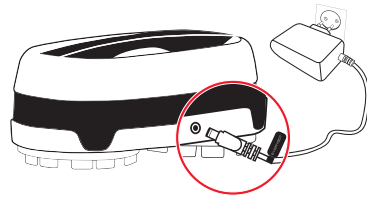

· Microfiber yarn mop (green color)

It is a mop with richer and longer yarns so it has superior wiping performance.

How to use & Charge

- Please charge the product fully before the first operation.
- When charging the battery, the button on the main unit and the remote control does not work.
- Do not use any other power adapter other than the adapter which came with the unit.
