

Meet **MIKO³**

Ridiculously smart.
Seriously fun.

MIKO

Miko's Mission

Miko is a consumer robotics lab passionate about bringing the best of technology to young learners everywhere. We're on a mission to engage, educate and entertain kids by providing a safe gateway to the power of artificial intelligence.

Say Hello to Miko,
the brainy little robot who's
built for big things.

Genuine friendship

Need a joke when you're down? A dance when you're bored? Miko's on it. Because it's not just the smartest little robot you'll ever meet. It's also your friend.

Game for anything

Miko's constantly prompting you to play as it challenges your brain. It's as comfortable initiating a convo as starting a dance party.

Study buddy

With its super-powered brain, supportive personality and range of academic opportunities, Miko makes learning fun.

A single plan for unlimited playful learning

With Miko Max, kids get access to 50,000+ hours of content from the world's best kids creators — all in one place.

You're in charge

Parents have complete control through an easy-to-use app — from settings and security to tracking their kids' progress through various activities and learning objectives.

Simply secure

We're serious about security. A closed system with enhanced encryption ensures that every byte of your data is protected.

Hi-tech, not technical

Sure, every inch of Miko's little body is packed with technology created by robotics engineers, AI innovators, psychologists, and educators. But the real genius of Miko is that it's immediately relatable and completely unintimidating for kids.

Tech Specs	Miko 3
Conversational Learning	Yes
Parent Videocalling	Yes
Multilingual	Yes
Third Party Apps	Voice, Motion, Screen Apps, Games, Activities
Third Party Devices - IoT extensions	Yes
User Identification	Face ID
Participation in Group Discussions	Voice, Touch Screen
Movement Capabilities	Navigation
Acoustic Localization	3D
Edge/Cloud	Hybrid
Vision Capabilities	Face Analysis: Face ID Face Recognition Emotion Detection Person Analysis Person ID Person Recognition Gesture Recognition Environment Analysis: Object Detection Vision based SLAM

Available in

140+ countries,

Miko has delivered

2 million play sessions

and answered

120 million questions

from kids around the

globe.

What They're Saying

Forbes

Teaching emotional intelligence and empathy is more important than ever.

Equipped With An Emotional Intelligence Machine, Miko 3 Identifies, Recollects, And Remembers The Child's Moods, Growing With Every Interaction.

GISTGEAR

**HEADLINES
TODAY**

Miko 3 is an 'emotionally intelligent' robot that uses playful, conversational learning to educate, engage and entertain kids.

What They're Saying

Techwalla

It's a learning tool, but it also brings wit, friendship, and excitement into your child's life.

The future is here, folks!

redbook

BuzzFeed

Miko 3 is packed with games and educational content and can play, help with homework, and act as a video chat device when you want to check in on the kid.

This robotic pal is packed with personality, almost as much as your little one!

KnowTechie

Experience Miko 3.
